Check It Out, Students

You're generation next.
Get with the **student program**.

Whether you're an undergraduate or graduate student with an interest in high performance computing, or a PhD student about to enter the job market, getting involved in the Students@SC program can help identify your possibilities within the field of HPC. With opportunities for professional development and guidance from mentors, the Students@SC program helps facilitate students' transition into the professional HPC community.

Students@SC

Seize your opportunity to engage, learn, network, and serve.

Stay connected: @StudentsSC

Student Volunteers

Calling all undergraduate and graduate students! Volunteers support conference operations and can also participate in the Technical Program.

Help make SC happen →

Computing4Change

An exciting social challenge for undergraduate students, hosted at SC19.

Learn more →

Student Cluster Competition

Teams of undergraduate students put their skills to the test building, operating, and tuning powerful cluster computers in competition with young talent from around the world.
